## Edmonton May Share In Oil Well

Two-Year-Old Agreement To Be Extended

Edmonton may soon be junior partner in a producing oil well on the south bank of the North Saskatchewan river near Big Island.

Drilling is scheduled to start within two days on 414 acres of city-owned property adjacent to Whitemont Creek oil pool, not far from the Leduc field.

### 6-MONTH EXTENSION

City council last night agreed to a six-month extension of an agreement under which Calmont Oil Ltd. is to drill rights on the site, and to a change which allows the company to fulfill its contract by testing to 1,000 feet, to 10 holes, rather than to 6,000 feet, as in the present contract.

Oil rights were obtained by the city several years ago when it bought the site for an industrial farm but did not carry the project through.

It is found in the Calmont land that is the formation in which nearly 90 per cent of the oil in the city will receive 12 1/2 per cent royalty, and the company will then explore down to the Devonian. Deeper exploration must be completed within a 12-month period from October 22.

### ADDITIONAL PAYMENT

On Oct. 22, 1947, the city entered into a two-year drilling agreement with Calmont Oil, with an initial payment to the city of \$2,000, plus a production fee to the Devonian. Deeper exploration must be completed within a 12-month period from October 22.

The agreement specified that the company explore to maximum depths of 6,000 feet.

The company is presently asked city commissioners to alter the contract so it would be committed to explore only to the Devonian, at a depth of about 4,300 feet, and to this point last night agreed.

A production fee to the Devonian. Deeper exploration must be completed within a 12-month period from October 22.

### DEVONIAN DRY

Edmonton city officials in the area have been dry holes, according to Mayor Harry Ainlay, while Calmont Oil, which is presently asked city commissioners to alter the contract so it would be committed to explore only to the Devonian, at a depth of about 4,300 feet, and to this point last night agreed.

A production fee to the Devonian. Deeper exploration must be completed within a 12-month period from October 22.

The agreement specified that the company explore to maximum depths of 6,000 feet.

EXTREME cruelty is charged by film star Deanna Durbin in asking for divorce from writer-producer Felix Jackson. Canadian-born songstress, 27, claims she and hubby "were together, so much at home and at work" they got on each other's nerves. It was Deanna's second marriage, Jackson's fourth.

## Pitre Woman Quizzed Again In Air Crash

QUEBEC, Sept. 27.—(CP)—Henri Charland, assistant deputy provincial police director, said today that Mrs. Arthur Pitre, described as a friend of the man charged with murder in the Quebec Sept. 9 air disaster, has been taken to provincial police headquarters for questioning by city police.

She had been under surveillance in her apartment since police arrested Friday night that she was a material witness in the case.

Charland said she was immediately taken to the city of Quebec, where she was transferred from city hall to provincial police headquarters.

RCMP said Friday she admitted that she carried to Quebec airport a parcel believed to contain the bomb which ripped the airliner.

## CRIPPS' PROGRAM SALIENT FEATURES

Highlights of Sir Stafford Cripps' anti-inflation program:

1. As from today an increase of five per cent, from 25 to 30 per cent, in the tax on distributed profits.

2. First preference for exports to dollar areas, even at the cost of disappointing oil customers.

3. Unmost efforts by the government to keep general price increases to a minimum. He admitted that the government will be discussing meat prices with Argentina as a result of devaluation.

4. It is of "critical importance that nothing, and not literally nothing, should be done to increase personal incomes arising out of profits, wages or salaries" until the government can see whether devaluation is successful.

5. Even if there are exceptional and genuine hardship cases for wage claims "we cannot accept the maintenance of differentials" for higher paid workers.

6. Continuation of subsidies of millions of pounds in food, and continuation without change of other social services.

7. Reduction of the demand for goods in the home market, limitation of internal expenditures.

8. We must look to capital expenditure and government expenditure to provide some easement of the inflationary pressure."

9. An immediate review of the entire investment program.

10. Reduction of government expenditure outside the defence and social service fields.

## Child Escapes Death As Auto Hits Store

A child narrowly escaped death as a store front was smashed, and a woman was slightly injured in traffic accident yesterday.

Store front demolished was West Devon Street, 936-938 street. It was struck when a car, driven by John J. Wilson, 3128-888 street, went into the store.

The child was in a baby buggy in front of the store at the time of the point of impact.

CHARGE WITHDRAWN  
A charge of dangerous driving against Wilson was withdrawn in police court today.

He told police the clutch of his car would not disengage and he was unable to stop when making the turn.

The car struck the south curb of 118 avenue, rebounded, and mounted the north curb, striking the store.

A bicycle in front of the store was demolished.

BRUISED ANKLE  
Mrs. J. Williams was taken to Royal Alexandra hospital after being in collision with a car on Jasper street last night. She was found suffering only a bruised ankle.

Driver of the car, Alex J. Yaremko, 412-118 street, was found occurring as he was to avoid another car. He was making a turn at the intersection.

Driver Killed In Accident  
Lefthand, Lefthand, was killed near Holburna when struck by a pipe which shifted on his truck after it and an army vehicle sidetracked early this morning.

W. Wilkie, Redwater, in the truck, Lefthand, escaped serious injury, and E. C. Niel, Wainwright, who was in the truck, was not hurt.

Both vehicles were going north. The army vehicle spun into a ditch and was damaged by Commonwealth Drilling Company, stayed on the road.

First Mavoraty Shot Like Vocal Machine Gun  
Babylon to the banks of the North Saskatchewan river, he hurled the banks below the Macdonald house as the last shot of the whole battle.

A final burst of eloquence had to do with efforts to put the city on its feet—and how it is time to get on its feet.

His scintillating speech, listened to by a large gathering, received its last exclamation mark from Mayor Ainlay as the speaker uttered:

"That's a pretty good election speech, I guess," the mayor called.

## Freezes Wages, Boosts Profits Taxes

## Austerity Program Outlined By Cripps

LONDON, Sept. 27.—(UP)—The Labor government announced today a boost in profits taxes and a freeze for the time being on all wages in an effort to control the inflationary spiral set loose by devaluation.

Sir Stafford Cripps, Chancellor of the Exchequer, called for the new austerity measures at a special session of parliament called to debate the devaluation crisis.

"It is time," the exponent of austerity said in disclosing his anti-inflation program, "to renounce and to denounce that easy going, get rich quick attitude to life that in all levels of society has found its post-war devotees, and which prides itself on the amnesia of its own efforts and the largeness of its personal gain."

He called for an absolute freeze on all personal incomes from profits, wages or salaries until the results of devaluation can be determined. He rejected without qualification all wage demands sought as compensation for any increase in the cost of living.

## Food Subsidies Stay

Cripps proposed to continue government subsidies on food at the present levels. He said it was "essential" to continue other social services.

As part of the demand for a temporary but absolute freeze on incomes, Cripps proposed that the tax on profits be increased five per cent from 25 to 30 per cent.

He called for an absolute freeze on all personal incomes from profits, wages or salaries until the results of devaluation can be determined. He rejected without qualification all wage demands sought as compensation for any increase in the cost of living.

## Famed Bush Pilot Is Reported Safe

Alerted search and rescue squadrons of North West Air Command today were not called upon for action following receipt of word from Matt Berry, famous northland bush pilot, that he was "safe and well" at Yellowknife.

Berry was reported missing this morning when his plane was overcast at Fort Good Hope, 100 air miles northwest of Norman Wells, N.W.T.

Two business associates each received telegram from Berry from Yellowknife.

STOPOED ON WAY  
R. H. Driscoll of Yellowknife, British Columbia, and Driscoll, said Berry had completed his trip from Norman Wells to Fort Good Hope, but that en route he was overcome by a severe attack of seasickness, and he was unable to continue his journey.

This, said Mr. Driscoll, probably accounted for the delay in arrival at Fort Good Hope and gave rise to the anxiety over the flyer's safety.

AREA SCANNED  
A Canadian Pacific Air Lines plane based at Norman Wells this morning scouted the area in search of Berry's craft and search and rescue organizations of the RCAF are stood by to assist if needed.

Mr. Driscoll said the northern bush pilot advised him he would be leaving Yellowknife for Fort Smith, N.W.T., the base from which he makes his flights.

Wounded Nurse's Recovery Likely  
DUMFRIES, Alta, Sept. 27.—(CP)—Leila Robinson, 25-year-old nurse who was severely wounded Sunday when she strangled into an unlicensed shooting gallery, likely will recover, her physician said yesterday.

No charges have been laid by RCMP but three girls and three boys, all under 18, were reported involved in the shooting incident.

Alberta Oil Seen Greatest Boon to Canada's Economy  
WASHINGTON, Sept. 26.—(CP)—Alberta oil may be the most important thing that ever happened to Canada's economy, says the Standard Oil Company (New Jersey).

Three Babies, Mother Dead  
CHICAGO, Sept. 27.—(AP)—Mrs. Bernice Ecker, 37, and three of the quadruplet babies she bore last night were dead today.

The remaining infant, a boy, still was in a 36th street hospital, but physicians at Holy Cross hospital.

Her husband, Vernon, a truck driver, said his wife was not dead when he opened his door early in the night to a doctor's call to find out.

A staff physician at the hospital said acute anemia was the cause of Mrs. Ecker's death.

Fiendish Bandit Splashes Acid In Victim's Eyes  
FORT WILLIAM, Ont., Sept. 27.—(UPI)—Matthew Campbell, 26, was blinded by acid and robbed when he opened his door early in the night in response to a mysterious knock.

Police said Campbell told them that he had opened his door and acid splashed into his eyes, blinding him. He staggered back blinded. His assailant escaped with \$60.

It was not immediately known whether the injury to Campbell's eyes was temporary or permanent.

# It Happened TODAY

## Aviation

United States Navy is fighting hard to keep a hold on long range bombing aircraft the newly created air force. Navy had a good practical argument in its favor with launching of a two-engine, 4,000-mile range bomber from the deck of the carrier Franklin D. Roosevelt. Air Secretary Symington said the operation was "marvellous."

labor is a strong bid for political power in Canada through the CCF party.

## Hemisphere Defence

Of course it's ostensibly only a matter of time before the planes are amassing aloft to get away with anything. This was revealed in west coast newspapers with announcement of the U.S. Air Force already has an elaborate aerial defense network in operation. Every plane taking off in Pacific Northwest area is detected by military radar and if not promptly identified air force interceptors wing aloft to lock them over.

## The Nation

British Air Minister Arthur Henderson and 22 high-ranking RAF and government officials are winning their way to Canada to attend ceremonies at Ottawa commemorating the British Commonwealth Air Training Plan of Second World War.

Canada's most easterly and westernmost ports will be visited by government regional trade experts henceforth so that businessmen may be informed of various developments in trade. Officials have been set up at St. John's, Newfoundland, and Vancouver. W. F. Rendell, formerly Newfoundland trade commissioner.

## Atomic Age

British Commonwealth, United States and a United Europe Federation may be basis for new world organization with a common parliament and police force, says Premier C. G. Douglas of Saskatchewan. International parliament, police force and court forms are alternatives to chaos and war, says the Saskatchewan premier.

## People

Canada is to have a visit from Prime Minister Nehru of India Oct. 25-26. Head of new independent Indian nation will call on Prime Minister St. Laurent in Ottawa and then go to Washington for a brief visit with the Indian community there.

## Latin America

Costa Rica isn't going to invade her neighbor, Nicaragua, or any other country, declares Costa Rican minister of security. This is the reply to a recent announcement by the Nicaraguan war minister, who hinted strongly that an invasion was being prepared against his country.

## Manners & Morals

Seating men just can't go for conventional hot dogs that are studied, with manners. A Gloucester, Mass., man has come to the rescue of hot water sailors with a fast-filled version of the hamburger.

Actor Paul Valentine has won a divorce from strip-teaseer Lili St. Cyr because "almost everybody saw more of my wife than I did." He told the court he gave the dancer a lovely home but she refused to sacrifice her art for the fireside. Although this caused Valentine mental anguish he will continue to handle his former wife's business affairs, says his billing and routing.

## Politics

President A. R. Mosher of Canadian Congress of Labor is still urging members of his organization to hitch their wagon to the fading CCF political star. He told members of the Canadian Brotherhood of Railway Employees the end step for

# Violence Feared In U.S. Strikes

Ford, Steel Peace Hoped As West Coast Jitters

The United States waited today for breaks in the steel and Ford labor deadlocks while violence threatened in Oregon as a result of the coal walkout.

About 1,500 CIO longshoremen in Oregon were reported converging on the Dalles, where municipal cops are not organized, to prevent unloading of 800,000 worth of pineapples from a barge that slipped away from docks struck by the longshore union in Hawaii.

## HOSES SET

Firemen were reported unloading high-pressure water hoses for use in breaking up possible riot if officials went ahead with plans for unloading with non-union labor.

"Police were assigned to protect 300 non-union staff and strip miners in western Pennsylvania where non-union miners voted to return to work today despite efforts by John L. Lewis United Mine Workers to keep them idle while the current UMW strike.

A group of UMW men staged a showdown strike in the Illinois county by courtoise in West Virginia in an attempt to force authorities to release two men arrested earlier when 1,200 mining UMW pickets beat three non-union men and forced six miners to shut down operations.

## ELECTRICAL WORKERS

Minneapolis, Minn., Electrical Workers Union authorized a strike against General Electric and Westinghouse if the companies fail to give way in negotiations scheduled to resume beginning Oct. 4.

With a nation-wide steel strike deadline less than 100 hours away, government officials looked to the hope of a major break in the deadlock between the CIO Steelworkers' Union and U.S. Steel. The government apparently was hoping for some dramatic development such as occurred last week when the steel union's leaders cracked and they gave in one by one to President Truman's request for a delay of the strike until a fact-finding board could investigate the dispute.

## COMPROMISE

Now it appeared that each side would have to give in a little on their demands regarding the fact-finding board's recommendation that the union should abandon demands for a wage increase and the companies should finance a pension and welfare program to about the level of \$100 per hour.

## Cold War

Russia is going in for wholesale kidnapping of Americans in a grim game of hostage-holding. This was indicated by the release of two American youths held in the Russian zone of Germany since July 20. The youths were Warren Oelner, 21, and Peter Sellers, 20, who were arrested when they fled through Soviet zone on road to Berlin.

Production in the Alberta part of the Lloydminster field dropped from 3,200 barrels during the week of the 12th to 1,340 barrels a day. Production for other fields went up to 1,360 barrels daily from 661 barrels a day during the previous week.

Natural gasoline recovered from the Turner Valley field was 1,041 barrels per day, based on the average daily production during the month of July.

Douglas fir comprises 34 per cent of the mature trees on the British Columbia coast.

## U.K. Boosts Tax, Freezes Wages

(Continued from Page 1)

between governments. We have already shown that the United States and Canada. Conservative A. R. Blackburn asked whether the western powers had been "outstripped by the Russians." Attlee replied that he did not believe that this question arose. Blackburn asked whether Attlee believed in going back to the days when people were anti-Communist now felt that the issue was "no more than a question of the highest level."

"We already have declared our policy," Attlee replied, "and the matter has been discussed in America and in the United Nations. We believe there should be international control of atomic energy."

"Great progress would be made if the Soviet government would agree to international inspection of atomic energy," Attlee replied.

Attlee repeated several times that any new atomic development would be approved only after joint Anglo-American-Canadian consultations.

## SOME GERMANS NOW MAY ENTER CANADA

OTTAWA, Sept. 27.—(CP)—Reverend Minister Gibson told the Commons yesterday the government now is prepared to consider applications for immigration to Canada from certain classifications of German nationals.

Replying to a question from Rose Thatcher (CPC, Moose Jaw), Mr. Gibson said no change in existing legislation has been considered.

## ON BALANCE SUFFICIENCY

"It is more likely that she will achieve sufficient self-sufficiency, a self-sufficiency 'on balance' between imports and exports."

"The explanation is to be found in the economic conditions of transportation. Oil moves so much more cheaply by water than by any other means that it may still prove more practical for refineries in eastern Canada, for example, to take their crude by ship from Venezuela, the Gulf of Mexico or from the middle east, rather than from Alberta."

"On the other hand, Alberta is so close to the northwest area of the United States that it may when it will be economic for this region to take crude by pipe line from across the Canada border."

## 62 Airplane Deaths Feared

By British United Press

Airplane crashes in widely separated parts of the world claimed an estimated 62 lives today with more than half of the victims the crews of British and American airlines.

Thirteen officers and men went down last night with a 3-20 Superfortress that crashed and burned in a rugged mountainous area of southeastern Oklahoma.

In England, 14 British airmen died last night when two four-engine Royal Air Force Lincoln bombers collided during a mock bombing raid on Stavropol, 120 miles north of London.

The U.S. air force reported from Guam that 11 members of a 14-man Superfortress crew were killed last Friday in a takeoff from an airfield there.

MEXICAN CRASH In Mexico, 24 persons, including two American airmen, were killed in the wreckage of a Mexican airplane which crashed yesterday in a rugged mountainous area of southeastern Mexico, 45 miles southeast of Mexico City.

## Coalition Fate Awaits Meet in Manitoba

VINNIPEG, Sept. 27. (CP)—The 300 delegates from all parts of Manitoba will converge on Winnipeg Wednesday to attend the final convention of the Liberal-Progressive Association.

They are expected to spend most of their time at the convention on major topics—the election of a new party leader and a party platform on the issue of coalition. The latter may have a bearing on the date of the forthcoming provincial election.

**ET POSTPONED**  
The convention, postponed from Sept. 16 to allow farmer delegates to complete harvesting operations, is expected to settle the leadership question with little trouble. The current leader of the party is Stuart S. Garson, premier of Manitoba until Nov. 7, 1946, who resigned from that position to take the post of Minister of Justice in the federal cabinet. His successor as premier, Hon. D. L. Taylor, is considered an almost sure choice for the leadership.

By other question facing the convention will be a decision on the issue of continued party participation in Manitoba's nine-year coalition government.

The Liberal-Progressives, with members from the largest party in the legislature to the coalition. Eight Progressive Conservatives also support and four other Progressive Conservatives all as independents.

**FOPOSITION**

The CCP party, with eight members, forms the official opposition in the Manitoba House. There were 10 members at the last session two have been expelled from party since then for their opposition to the Atlantic Pact.

The convention expects the party of supporting the coalition, (Liberals) observe that the loss in November is probable if the coalition should split.

The coalition issue is expected to be the election will be postponed next spring.

## A. Raises Crude Price

EDMONTON, Sept. 27. (CP)—The American Oil Company announced yesterday that effective Saturday its price for crude oil in the Leduc-Crude area has been increased by 25 cents a barrel.

The change falls in line with a price of Leduc crude to 22.88 a barrel and Turner Valley to \$34.44 a barrel of Leduc crude plus a two-cent bonus for each degree rise in gravity.

**To Revise Indian Act Being Drafted By Dept.**

OTTAWA, Sept. 27. (CP)—A bill to revise the Indian Act may be introduced in the next session of parliament.

The current Minister Gibson told the commonsense yesterday that the bill will bring up-to-date all provisions covering Indians, now being drafted by the Justice Department.

The Minister was replying to a question by J. L. Gibson (Ind., edg. Albert), who wanted to know if the matter, considered by a committee at the last session of parliament, would prove legislation in the near future.

THOUSANDS OF DOLLARS damage was done to United Grain Growers' dock in Vancouver when it was rammed in fog by freighter Manowara. Twenty-five-foot gap, 45 feet deep was made in pier.

## Judge Refuses Easy Out for U.S. Exile

DENVER, Sept. 27. (AP)—Henry M. Blackmer, multi-millionaire oil man who fled to France and 25 years of exile imposed exile when the Teapot Dome oil scandal was exposed, pleaded guilty yesterday to income-tax evasion.

He stood, white-haired and slightly stooped, before Judge Orie L. Phillips to enter the plea which he thought could clear up his difficulties with the courts of the United States.

A few moments earlier, District Attorney Max N. Bulkeley had informed the court that when Blackmer pleaded guilty in the tax evasion case, the government would move for dismissal of four perjury judgments against him.

**SURPRISE MOVE**  
But Judge Phillips, to the obvious surprise of both sides, refused to accept that arrangement at face value.

Judge Phillips instructed Bulkeley to turn over his files and "all facts in the government's possession." He said he would "satisfy my own judgment and conscience" before dismissing the indictments.

None of the indictments against the 80-year-old Blackmer was concerned with the Teapot Dome scandal, which shook the Harding administration in 1924.

As Wednesday is a called from the custom of the Roman Catholic church of sprinkling ashes on the heads of penitents on that day.

## 150 To Enter Judging Contests

OLD, Alta., Sept. 27. (CP)—About 150 representatives of Boys and Girls Clubs in Alberta will compete in the junior judging competitions at the Old School of Agriculture Thursday.

The winning team in each class will enter the Dominion competitions at the Toronto Royal Winter Fair in November.

The Minister was replying to a question by J. L. Gibson (Ind., edg. Albert), who wanted to know if the matter, considered by a committee at the last session of parliament, would prove legislation in the near future.

**What Every Man Should Know...**

...if he's going to be an executor!

1. How to value all assets, and trace all beneficiaries.

2. How to deal with and properly assess the claims of creditors.

3. How succession duties and income taxes are settled.

4. How to keep proper Trust Accounts acceptable to the Courts.

5. That he must provide for the safekeeping and transfer of Securities.

6. How to shape an investment plan—

manage real estate—or deal with a business that may form part of the estate.

Are you asking a "best friend" to know all this—and much more—and if it all in his spare time? Thoughtful men realize that successful estate management is a specialized business. For your family's continued security, appoint National Trust your Executor.

## Canadian Coast Open to Attack

Conservative MP Scores House For Arms Shortage

OTTAWA, Sept. 27. (HUP)—The government was under fire today for failing to provide fighter planes to offset a possible Russian attack on Canada's west coast.

The criticism came in parliament last night from Major-General G. R. Pearson, the opposition's chief defense critic and Progressive Conservative member for Nanaimo, B.C.

**SEEKS CARRIERS**  
Pearson, a Victoria Cross winner in the first world war, urged immediate action in basing an aircraft carrier in Pacific waters in the same way that the navy's anti-air carrier, HMCS Magnificent, is used in Atlantic patrol work.

Although the airfield at Whitehorse, Yukon, was within easy flying distance of Siberia or of a carrier patrolling the Pacific, he said, no provision had been made for the field's defense.

Pearson also urged posting of a highly-trained and well-equipped land force at Whitehorse to defend the field from attack by airborne troops.

**PRAIRIE THREAT**  
An enemy who managed to get through to Whitehorse would form a potent threat to strategic industrial areas near Winnipeg, Saskatoon and Vancouver, B.C., and would be within easy bombing range of both cities, he said.

In his first major attack on defense policies since the war season of parliament opened Sept. 15, the 61-year-old member pictured western Canada as a potential battleground of the third world war.

Largely because of this, he told the house, the entire nation was "shocked" at news reports which stressed a shortage of modern planes and equipment was revealed when combined army and air force units staged war maneuvers dubbed "Exercise Eagle" earlier this year in the Canadian northwest.

**NEED COAST GUARD**  
Pearson said the time also had come when Canada would no longer depend on the United States to patrol its coastal waters. While the American coast guard patrolled the Pacific off the American mainland and Alaska, he said, enemy forces would find their way through an undefended gap which existed off the Canadian coast.

During the popularity of snuff in England, snuff boxes of gold, silver, precious stones, and enamels were widely used.

**Skinny men, women gain 5, 10, 15 lbs.**

Get New Prep, Vim, Vigor

What a shock! Skinny men and women, who were once healthy and strong, are now thin and weak. They are losing weight and strength, and are becoming ill. This is because they are not getting enough of the right food.

New Prep, Vim, Vigor is the perfect food for skinny men and women. It is a complete food, containing all the vitamins and minerals that the body needs. It is easy to digest, and it is delicious.

Get New Prep, Vim, Vigor today. It will give you the strength and energy that you need. It will make you healthy and happy. It will make you a skinny man or woman no more.

# Third Success At Joseph Lake

By Don Flach

Development of the Joseph Lake area as an oil field is progressing with the completion of another well in the vicinity by the first of four independent companies.

Latest well in the steeply developed area, No. 2, topped the saturated Viking Sand at 233 feet. Coring was halted one foot into the oil sand at 234 feet and a test made of the interval from 227.5 to 234 feet.

Gas came to the surface at the rate of 77,000 cubic feet per hour. When the tester was opened and was followed 11 minutes later by a flow of crude oil to the surface, which ran steadily for the remaining 22 minutes the tester was open. The oil flow was estimated at 40 barrels hourly, and showed no signs of water.

## TWO MORE PLANNED

Seven-inch casing has been run to take production from current depth. Production will likely start this week.

Seawater further study is being given information gained from the three wells preparatory to staking more. Two more wells are scheduled to be drilled and completed within the next four weeks.

Independents participating are Superior Oils, General Petroleum, Superior Oils and Kerosene, and cover is in an Imperial formation.

**TExaco Spuds C-1**  
Texaco-McCull has started drilling on operations on the quarter-section at the north end of the Redwater area.

C-1 was spudded last evening. The holding time one-half mile north of the quarter-section of A-1, drilled by the team and the quarter section being successfully developed by Anglo-Homes, No. 34, at seven-inch casing to 2,225 feet. The well is in a formation, No. B-3 at 2,298 feet and also diamond coring. No. A-3 is also diamond coring. No. A-3 is also diamond coring.

# Britain After Airline Markets

LONDON, Sept. 27.—(AP)—Devaluation provides another strong lever with which British hopes to pry the world airline markets away from American plane builders.

Spokesmen for the industry say it is the new British jet-powered transporters should "ride the job up well." In the next two or three years.

Devaluation means that we will be able to offer our new planes to both European and American markets at least 20 per cent below the costs of comparable American craft, one spokesman said.

## Livestock

EDMONTON, Sept. 27.—Total receipts 34,365, calves 202, hogs 13, sheep 10.

Tuesday's cattle market was under normal receipts and a somewhat weak demand. Local packers were quite indifferent about purchasing at the sellers asking prices, and continue to bear down on all fat in medium grades of cattle.

The few sales during the morning were mostly feeder cattle and calves. There were no choice cattle sales. Also being abandoned is Barnhill-Henshale-Sandwich flathead No. 3 with bottom at 3,639 feet and a test made of the interval from 3,575 to 3,639 feet.

## ROYALTY WILDCAT

Royalty has spudded its wildcat No. 1 and is presently operating at 140 feet. The well is in a formation, No. 34, at 1,400 feet and also diamond coring. No. A-3 is also diamond coring.

Western Redwater No. 17 is drilling at 1,400 feet. The well is in a formation, No. 34, at 1,400 feet and also diamond coring. No. A-3 is also diamond coring.

## TEXACO Spuds C-1

Texaco-McCull has started drilling on operations on the quarter-section at the north end of the Redwater area.

# Air Stock Groups Slip Back Slowly

Lead Cut Hits Base Metals; Some Industrials Dip Point

TORONTO, Sept. 27.—(CP)—All groups sagged slowly in the dull trading some time on the Toronto Stock Exchange today. Base metals were down sharply following news of a reduction in the price of lead but found support towards the close.

Industrials and golds slid slowly in spite of activity and volume was down from 1,800,000 shares. The few sales during the morning were mostly feeder cattle and calves. There were no choice cattle sales.

## Chicago Wheat Gains 2 Cents

CHICAGO, Sept. 27.—(AP)—Wheat deliveries at home touched seasonal highs at the Board of Trade today. The December, March and May contracts reached highs all up around two cents.

Anticipation of a new four bushel contract combined with the announcement of a 10-cent advance in family flour effective tomorrow, induced buying. The cash market was also a factor in the advance.

Traders called the market "all up around two cents." The cash market was also a factor in the advance. Traders called the market "all up around two cents."

## Sugar Content Of Beets Low

LITCHFIELD, Alta., Sept. 27.—(CP)—Sugar content in beets harvested at the Raymond and Platteville Beets refining plants are about 15 per cent below the mark anticipated, T. George Wood, manager of Canadian Sugar Factors, said here yesterday.

This means that sugar production from the 1949 beet crop will be considerably lower than expected. A heavy frost is blamed for the reduction in sugar value.

## Meat Traders Veto Nationalization

LONDON, Sept. 27.—(AP)—The National Federation of Meat Traders voted today to combat any proposal to nationalize any part of the meat industry in Britain.

The Labor Party's proposals are for nationalization of the wholesale, importing and cold-storage sections of the meat industry.

More than 30,000 acres of sugar beets are grown in southwestern Ontario each year.

# Wheat Board Sept. Quotes Eastern Demand Lifts Both Oats and Barley

WINNIPEG, Sept. 27.—(CP)—Wheat Board quotations for local and Laskabush sales, September delivery (subject to confirmation) are: No. 1, 1.15; No. 2, 1.10; No. 3, 1.05; No. 4, 1.00; No. 5, 0.95; No. 6, 0.90; # Mines Get Chance At East Market

Devaluation, Strike In U.S. Open Ontario, Quebec Field

OTTAWA, Sept. 27.—(CP)—The combination of dollar devaluation and the United States coal strike has given Canadian mines a chance of taking the big Ontario-Quebec market away from U.S. mines.

It's doubtful, however, if Canadian mines can increase their production quickly enough to take full advantage of the situation, say mining sources.

Devaluation of the Canadian dollar boosted the cost of U.S. coal by 10 per cent, enough to give coal from Nova Scotia and Alberta a fighting chance in the big market in the central provinces despite the high cost of transport.

Deliveries from the U.S. have stopped since the coal strike began last week.

**PRODUCTION LAGS**  
But Canadian production still lags far behind consumption. In the first seven months of this year, for example, Canadian production was 10,543,370 tons. But imports of 12,380,481 tons were needed to meet Canadian needs.

Despite an increase of eight cents a ton in the costs of hauling coal, authorized by the Board of Transport Commissioners last week, officials believe coal from the west and the Maritimes still will be able to compete with U.S. coal in Quebec and Ontario.

**DEMAND HEAVY**  
Transport costs, however, keep Nova Scotia coal from going any further west than Montreal and keep Alberta coal from Quebec.

But there appears to be a heavy demand for Alberta coal in Ontario and for Nova Scotia coal in the Montreal area.

Canadian coal production so far this year is running ahead of last year's and imports are down. This may indicate that Canadian mines may be able to supply most of the Dominion's needs.

So far, however, Canada has no workable deposits of anthracite and must import around 4,000,000 tons a year. But during the first seven months of this year anthracite imports fell to 2,070,000 tons.

## Drivers' Tests A 'Must' To Be Urged By Union

CALGARY, Sept. 27.—(CP)—One of the resolutions to be presented at the 45th annual convention of the Union of Alberta Municipalities here Oct. 6-7 will ask that a new system of granting automobile driving licenses be instituted.

The resolution will urge motor vehicle drivers' tests become compulsory for all applicants requesting drivers' licenses for the first time, all persons convicted of violating traffic regulations during the year and all persons involved in motor accidents during the year.

## Parachute Training Opens

OTTAWA, Sept. 27.—(CP)—Parachute training has started for members of the Canadian army's first airborne artillery battery, the army announced yesterday.

Four members of "B" battery, Royal Canadian Horse Artillery, began parachute training at the Canadian joint air training center, Rivers, Man., last week.

Eventually the entire battery will complete jump-training to fit it for a role in the airborne brigade now being formed by the army. The unit now is in training at Shilo, Man.

It is the third unit to be active in the army's field force to begin airborne training. The Princess Patricia's Canadian Light Infantry has completed a lengthy course at Rivers and the Royal Canadian Regiment now is on course there.

In its new role, the battery will go into action with airborne 75-millimetre guns and 4.2-inch mortars.

## Capitalists Without Rights In China

SHANGHAI, Sept. 27.—(AP)—Persons classified as "bureaucratic capitalists" will be "temporarily deprived of people's rights" under the people's republic of China, the Communist news agency said today.

The report said their land and capital would be confiscated. The dispatch did not define "bureaucratic capitalists."

## 100 A-Bombs for Russ In 2-Years Predicted

WASHINGTON, Sept. 27.—(AP)—Dr. R. E. Lapp, an atomic scientist, says he believes that if Russia has sufficient uranium she can accumulate about 100 atomic bombs within the next two years.

But Dr. Lapp also says he's positive the Reds can't make bombs any faster than the United States can.

**100 IN 2 YEARS**  
In 1948, Dr. J. Robert Oppenheimer, a top American A-bomb scientist, indicated in testimony before a Senate committee that the United States could produce 1,000 bombs in two years in an all-out effort.

Formerly executive director of an atomic energy committee in the national military establishment, Lapp said he believes Russia definitely has the bomb, but he added:

"The actual time when Russia has the first bomb is not as important as many people think. It is the time when Russia will have the bomb in quantity and can deliver it. That's the really important thing."

**CRITICAL TIME**  
"I think that the time that's really critical is not now but would be on the order of two years from now."

He made the statements in a copyrighted interview with U.S. News and World Report, an "independent weekly news magazine published in Washington."

Now water contains a greater proportion of oxygen than rain or river water, which accounts for its greater rusting action on iron.

## LAME SHOULDER?

If your shoulder is painfully lame because of sprain, swelling pain, or other conditions have done so, see Dr. J. B. C. C., especially made to give quick relief from Rheumatism, Arthritis, Neuritis, Trauma, etc. Also Lumbago, Hemiplegia, etc. under conditions. Cost 7-8-5-1 today, 60c, \$1.25 at drug counters. 1-4-3

**MORE VIOLENCE** is feared in complicated U.S. labor picture. Early settlement is hoped in steel and Ford negotiations but observers see battles ahead in West Coast U.S. shipping. Striking Bell Aircraft workers at Buffalo, N.Y., (above) scuffle with police and non-union workers on way to work. See story Page 2.

## 2,000-Year-Old Industry Being Revived in Cornwall

CAMBORNE, Cornwall, England, Sept. 27.—(CP)—Cornish grandfathers, whose stories of tin mining in the good old days have been "shushed" for years, now are being heard with respect.

For Cornwall's tin mining industry, which dates back centuries, is being revived on a large scale.

Because of the demand for tin in North America, it is fast becoming one of Britain's major dollar-earning concerns.

Among Callington, for instance, retired miners are talking tin in the local pubs at the rate of 5,000 words a pint—and answering lots of questions, too.

**HELPS VILLAGES**  
Reopening of the new Consols mine at Luckett, closed for 12 years, has brought new life to a score of once-prosperous mining villages in the Callington area.

Prospects look so good that many Cornishmen are returning to their native haunts after years of exile.

Sam, Jack and Tom Scoble, whose family have been tin miners for generations, came back from South Africa to try their luck in Luckett.

"We went overseas because there seemed little chance of carrying on our family tradition here," 40-year-old Sam said.

"Now we've decided to give Cornwall another chance."

The new Consols mine was worked for more than 40 years before 1871 when it was flooded. Now it is being worked with the latest electric equipment. Its annual turnover of tin is expected to be £100,000 (\$200,000).

**OUTPUT WILL BE UPPED**  
For years the Cornish tin miner worked against increasing foreign competition from Malaysia. Then, during the second world war, the Ministry of Supply set up the Cornish Tin Mining Committee, among new batches of prisoners and giving the Germans information.

Comment: Have taken this excellent suggestion under advisement. Will do—if engaged Ed Jackson and Bulletin "artist" Bill Baird, depraved Ed Feenish and others.

## 4 Canadian Army Men Still Serve War Raps

OTTAWA, Sept. 27.—(CP)—Four years after the war, four former Canadian army privates still are in prison for wartime offenses; two for murder, two for voluntary aiding the enemy while they were prisoners of war.

Of the 2,847 servicemen under sentence at end of hostilities, only those four remain behind bars, the defense department said today.

Continuously in court since 1945, the four men are being benefited more by the announcements of their sentences than by the actual sentences.

Comment: Have taken this excellent suggestion under advisement. Will do—if engaged Ed Jackson and Bulletin "artist" Bill Baird, depraved Ed Feenish and others.

## KROL SHOWS WAY

## Homebrews Out-Do Yanks

TORONTO, Sept. 27.—(CP)—Most of eastern Canada's football players from the United States play in the point-scoring positions but they aren't pushing the homebrews out of the touchdown class.

Statistics compiled by the Canadian Press show that in the eastern Big Four this season, native players have tallied 222 points to 137 for Americans. And in the Ontario Rugby Football union the homebrews have a 196 to 52 edge.

**Krol On Top**  
Individual scoring leader in the east is still Joe Krol, of Toronto Argos, who has produced 36 points in five games. He got four points Saturday.

Tom Casey, Hamilton Wildcats Negro half who formerly played with the professional New York Yankees, moved into second place with an eight-point showing Saturday. He has a point total to 26. Hottest individual display Saturday was provided by Royal Canadian Mounted Police half Toronto Argonauts, whose 15 points gave

## Controls Lifted

MANILA, Sept. 27.—(AP)—Philippine export controls ended today. The ban was lifted on a long list of goods including rice and burials bags. Lumber and other prime exports as copper, sugar and hemp have not been restricted.

## Spokane's Sonny Orrack Above

Spokane's Sonny Orrack above will match right hooks with Edmonton's Billy Carter in all-around semicircle of promoter Jack Berry's boxing card at Stock Pavilion Friday. Benny Grey meets Wilf Tremblaine in main event.

## Edmonton Junior Rugby League

## STUKUS REBELS

What frustrating fact is out of place on the Ekimko football club? You guessed it. Executive members of the organization interfering with Anna Stukus and his coaching methods. This thought occurred very suddenly to Mr. Stukus yesterday, after he heard that a certain Ekimko brass-hat was attempting to arrange a meeting of the coach and the executive to find out why Edmonton absorbed a 41-5 beating from Calgary Saturday night.

"Why should I agree to such a thing?" the coach asked himself. "How we win and lose ball games is nobody's business but mine."

So he rebelled at the thought of the executive running his team. He did it in a manner befitting a good coach, too, by chasing Ekimkos through their toughest drill in weeks.

## WONT HAPPEN AGAIN

There have been incidents occurring all year which have served to indicate that Big Stukus was entirely in command, that the front office was calling some of the shots for him.

They are not likely to occur again.

"Why do, one of two things will happen," Stukus will resign, or a certain member of the executive will be out on his ear. And the way things looked last night in the glow of the stadium was doing any reigning this season under any circumstances.

But the executive member might get the heave-ho.

## BRADBURN AT FAULT?

Bob Bradburn, chairman of the finance committee, is rumored to be Stukus' back-seat driver.

But whether it is Bradburn or not hardly matters.

What does matter is that whatever it is, he needs his fingers slipped — hard.

Stukus, after all, was brought here to coach the team. And if the executive had enough faith in his ability to hire a coach, he should allow him to finish the job.

Certainly, interference from the front office isn't going to help him do a better job.

But it will make his task a lot tougher.

## LET STUKUS FINISH

One of the salient features about Calgary Stampeder is the respect which they have for coach Les Lear. He is the boss and as such he rules the team with an iron fist.

Stukus hasn't been that lucky. The story of front-office fingerings has caused some of the players to regard him merely as a screw boss.

And that feeling has attacked Ekimkos like a cancerous growth.

However, all that is in the past. There are still sunshine and roses yet. But the majority of the executive and the players feel that no one could have turned in a better performance than Stukus has done thus far as Ekimko coach.

That is reason enough why he should be allowed to finish the season without some behind-the-scenes operator gumming the works.

## SLAUGHTER 5 POINTS BACK

# Jackie Robinson Clings To Slim Swat Margin

NEW YORK, Sept. 27.—(AP)—Jackie Robinson, second baseman, today's National League batting hero, although his average during the last week slipped a point.

While Robinson's average continued to steadily decline last week, the hit production of Enos (Country) Slaughter, St. Louis outfielder, suffered even more.

Yesterday's figures, following games of Sunday, show Robinson out in front with a .343 average, Slaughter second at .336. Musial moved up five points during the week despite a leg injury.

The last-climbing Carl Furillo of Brooklyn is fourth with .324.

Others in the top ten are: Bobby Thomson, New York; Ralph Kiner, Pittsburgh; and Willard Marshall, New York, .306; Ted Williams, Boston, .305; Ted Kluszewski, Cincinnati, .304; and Red Schoendienst, St. Louis and Del Ennis, Philadelphia, each at .297.

Robinson and Musial dominate in most of the other departments. Robinson has 109 hits to 106 for Musial and has 38 doubles to 34 in that phase with Ennis. Musial is leading in triples with 13.

Robinson's huge home-run bulge, has batted in 125 runs, with Robinson next with 121.

The fleet Robinson is far out in front in base stealing with 34 thefts. Team-mate Pete West is second with 28. Ennis also is the leading scorer, with 127.

Preacher Roe, Brooklyn, has the best pitching average with 14 victories in 19 decisions. Warren Spahn, Boston, leads in strikeouts with 140.

JACKIE ROBINSON

# Late Rally Gives Red Sox AL Lead

## 8th Inning Squeeze Bunt Gives Boston 7-6 Win

## Royals Rally To Win 6-5

MONTREAL, Sept. 27.—(CP)—A two-run rally by Montreal Royals in the ninth inning gave them a 6-5 victory over Buffalo Bisons here last night to take a 3-1 game lead in the International League Governor's Cup best-of-seven series.

Rocky Bridges, first man up, punted a single to left field to start the rally. Tony Altieri then laid down a bunt, which Jim Wilson fielded and threw to second to late to get Bridges. Charlie Thompson, batting for the pitcher, moved both runners up with a sacrifice bunt, and manager Paul Richards of the Bisons ordered Sam Jett to be purposely walked to load the bases.

Al Giofriddo then slashed a ground ball at Gene Markland and when the latter let the ball go through him, both Bridges and Altieri crossed the plate.

Ronnie Lee, starting Montreal pitcher, was belted from the box in the fourth when the Bisons staged a four-run uprising, featured by homers by Coaker Triplett and John Huxley. Clarence Poddelski shut out the Bisons for the balance of the game.

## Westlock Cops Thriller

CADOMIN, Sept. 27.—It will be Westlock pitted against Drumblair in the Alberta Senior B baseball semi-final series.

## NOW IT'S BENTLEY 'DESERTING' REGINA

REGINA, Sept. 27.—(BUP)—Cliff Ehrle, manager of Regina Caps of the Western Canada Hockey League, was surprised man yesterday when advised that he had just lost his star goalie, Ben Bentley.

It was reported that Bentley had been signed by Kitchener-Waterloo Flying Dutchmen. It was all news to Ehrle, who is having the time of his life trying to keep his players from wandering all over the country this season.

"Bentley hasn't been, and won't be, replaced by Caps until I have complete details," said Ehrle. It was reported Bentley signed with the Dutchmen under arrangement with the NHL Chicago Black Hawks.

8 EDMONTON BULLETIN, Tuesday, Sept. 27, 1949

SEIZING PACE that brought Boston Red Sox to top in American league standings after being miles off pace at July 4 even makes Ted Williams, right, and Dom DiMaggio stop and think. Red Sox took over lead yesterday, shading New York Yankees 7-6 with a four-run burst in eighth inning.

## McCALLUMS UNDER FOCUS

# Keglers Getting Set For Action

Comes the chilly weather and the bowling news crowds the sport pages.

Perhaps an inspiration for a Ripley cartoon would be the five McCallum brothers, Joe, Bill, Norm, Mackie and Jack, performing weekly under a "Bagpipes" nom de plume.

The Scotch clan (hence the name) are tied for third behind Acan and City Engineers in the Commercial men's five-pin bowling league.

STILL GOING STRONG

Mr. (Sandy) Sandilands, captain of Captains in the Friday night mixed league, continues to dominate the "oldsters" brigade. Sandy, owner of a mean curve ball, confers to be 30-years-old, and still a consistent bowler.

George Shaw of Tip Top Tailors put together strings of 315, 343 and 284 for a 942 high trip in the Senior Men's race. His 343 performance in the second game also gave him high single honors. Tip Tops, sweeping three games from Page Real Estate, posted high team score of 3963.

HITTING THE HEAD-PI

Joe McCallum of McGavin's Tavern, last year's league and city champion, secured a 321, finishing with 978 total for three games, last night in a 1000-point match.

Both individuals \$5000 in 1948 and \$7000 in 1949.

To 1960 both inclusive. These amounts total \$25,000 or 50% of the principal convertible debentures, Series A, to be presently outstanding.

## EVERYTHING'S BAD FOR THEM

CALGARY, Sept. 27.—(CP)—Calgary was Alberta's driest point this summer, federal government weather bureau men have reported. The football city had only 474 inches of rainfall from April 1 to Sept. 23 compared with a normal of 12.48.

Pete Mann of RCAF checked in with 309 as the Airman selected one game from the defending titlist.

Vern Mole helped Snile Hat Shop take two from Recreation with an even 300.

Spud Mair, member of the Recreation team, got busy with the figures last night and came up with some statistics. Fifteen games of 300 or better were rolled.

Price: 100 and accrued interest, to yield 4%.

be received subject to rejection or allotment in whole or in part and the right is reserved to close subscription books at any time without notice.

of the prospectus offering these Debentures will be promptly sent upon request.

By J. D.

Let not thy right hand know what the left hand doeth seems to be the policy of our federal government as far as enforcement of Canada's anti-gambling laws are concerned.

Income tax officials at Vancouver have announced they in strictest confidence are making a list of the persons who have been involved in gambling. It is said that the list will be used to prove the winners have been involved in funds or assets and are earning substantial incomes. Mr. Abbott can move in for a slice.

Income tax officials make no bones about any earning from money earned just as long as a person keeps it to the federal officials whenever the income tax is filed they are entitled to a share.

One of Doug Abbott's helpers at the coast is quoted as saying: "Our job is to check the taxable income; not how that income was obtained. That's up to another department and they have to get their own information."

#### JUST BE HONEST

In other words if you operate a poker or dice game with a raffle, a horse race betting book, lottery, or any other kind of a game you never need fear prosecution from income tax officials, unless you fail to report on taxes they feel you should pay.

And the test of taxability with income officials is whether or not a person makes his livelihood at gambling.

I wonder if the income tax books would suffer the same attitude toward money collected in an insurance fund?

Don't get me wrong folks. I think our federal anti-gambling laws are laws. There's a strong argument for levying sweepstakes. Everybody plays one or more sweepstakes although lotteries are clearly illegal.

But it certainly seems strange to have two leading departments the tax and justice departments having a game of hide-and-seek with each other.

I've been told that certain gamblers in Edmonton were billed for income taxes two or three years ago.

One of these had been having a spot of trouble with the justice department, so that police didn't read him again.

I never did hear what kind of view the justice took of this gambler's attitude but he left town for parts unknown shortly afterwards.

ITS CRUDE STUFF According to the law as enforced by present enforcement, business and professions are safe as long as they honestly declare their earnings and pay their taxes before the deadline each spring.

When the tax is not really able to follow up and make arrests of lawbreakers who calmly claim their earnings by filing tax returns out of date but surely a common burglar should not be permitted to play his trade at will so long as he pays the government what he thinks is a fair share from the plunder.

**BOY MEETS GIRL** on varsity campus at frequent occurrence, but pretty Norma Liesemer of Coleman met Ron Thomas of Calgary before-hand. Ron, a second-year student, met Norma while he was working in Coleman this summer. There'll be more opportunity for boy-meets-girl at ten dance Friday afternoon and big "mixer" dance Saturday night.

**EDUCATION** meant books, and freshmen Marshall Yaremkevich, of Gratz, Allen, believe in getting early start. Today is second day of registration at University, and campus is humming with activity.

## Council Gives Election Okay

City Clerk George Docherty today is setting the civic stage for Nov. 2 elections, following last night's council approval of polling hours and a change in nomination day.

Voting will take place from 8:30 a.m. to 7:30 p.m. Nomination day will be Oct. 19, instead of Oct. 24.

Aldermen Albert Bisset, Sid Bower, R. P. L. Hanna, Fred J. Mitchell and Sid Parsons, as continuing members of council, were appointed a committee to arrange campaign meetings, appointments, prices of pay, and other election details.

Mr. Docherty is starting to recruit a list of 400 election officials, including deputy returning officers, poll clerks, special constables and others.

They are needed to staff the 300 polling stations in the city of Edmonton. Appointments appear to the city clerk's office in the Civic Block.

**League Meets** Our gambling laws are away out of date but surely a common burglar should not be permitted to play his trade at will so long as he pays the government what he thinks is a fair share from the plunder.

**ALL FUTURE DENTISTS** is this group of freshmen, caught by Bulletin photographer relaxing on lawns in front of University medical building. They are Bill Savage, of Willingdon; Sam Shachnowich, Camrose; Great Mullen, Two Hills; Jack Becker, Ryley; Earl Milner, 3341-106 avenue; Terry Kline, No. 12 Lemarchand Apartments. All are registering in first year of arts and science which precedes dentistry.

## Residents Protest River Area Rezoning

Industry will make no further encroachment north toward Saskatchewan Drive, city council last night decided.

Heeding the appeal of a large delegation of Saskatchewan Drive property owners, it turned out a proposed zoning bylaw calling for rezoning of the area and paying the way for Prince Albert's Ltd. to build a warehouse for storing lumber and building materials.

A second delegation of owners and occupiers of agricultural land in the area between 100 and 160 streets from 52 to 60 avenue, protested three clauses in the same bylaw which would rezone the area from agricultural to light industrial.

Following the submission, council referred the matter to a subcommittee for further consideration.

**MADE ERROR** If J. Holby approved the property owners between 99 and 100 streets on Saskatchewan Drive. He said that to allow Prince to build on the site adjacent to the Calgary-Edmonton main line track, south of Saskatchewan Drive, would be to compound a serious error.

That error was in allowing a four-mile and elevator to relocate after being burned out. The disaster in high class residential area would be to deteriorate the city's prestige.

**Radio Servicers To Be Licensed** Radio servicing technicians must now be licensed by the city and pay \$15 each for the privilege. According to terms of a by-law approved by council last night.

Every person licensed must either be a radio technician holding an Alberta government first class certificate of proficiency, or have at least one such technician on his staff.

# Five Men Arrested In \$4,500 Robbery

\$40 GONE

## Even The Hangover Is Costly

A constabulary officer (back on the job today) after a night of drinking, was arrested for a \$40 hangover.

He was missing his girl friend and \$40.

He told police the girl left him from after a party Saturday night and took \$40 along with her.

Officers who investigated the case reported that the man had been drinking at a party Saturday night.

Magistrate J. W. Macdonald, after hearing the case, found the man guilty of larceny.

He believed it is the duty of a magistrate or judge to decide the honesty of evidence, he said, assuming up the case.

City lawyer Walter J. Beaumont charged the 35-year-old farmer had forced him to leave the house on Saturday night.

Defence lawyer Neil D. Macdonald argued that the man had been drinking at a party Saturday night.

SAFE CARRIED The \$4500 was stolen from the office of the Savings and Loan Union of Medicine Hat. The safe was removed from the office, later the safe was smashed off and the safe "punched open."

The safe weighed 250 pounds it was recovered near Medicine Hat, the following day.

**City To Allow Water Wells For Industrial Uses** City council last night enacted a bylaw enabling manufacturers to drill wells on their premises for industrial or domestic purposes.

Drawn with approval of the council, health officer and assistant of waterworks department, the measure provides for drilling of wells on premises for industrial or domestic purposes.

**City To Send Two To Municipal Meet** Edmonton will send two delegates to the Union of Alberta Municipalities convention in Calgary Oct. 6 and 7, city council last night decided.

Ald. Fred Mitchell, president of the union, and a second delegate to be named by Mayor Harry Almy, will attend.

**Kiwanis Club To Bring Carnival Air to Jasper** Jasper avenue will take on a carnival air Saturday.

To visitors it will look as if the circus is here.

It will only be members of the Kiwanis Club who will be allowed to enter the grounds.

The club's objective of 10,000 boxes of apples has nearly been reached, according to a report submitted to the Kiwanis Club by the Kiwanis Club of Jasper.

Setting of final plans for the sale of downtown Edmonton was made by James Hinde, chairman of the sales committee.

Club members were told that a prize is being offered for the best costume present on the streets Saturday.

**DANCE TONIGHT!** To JOE JOHNSON'S ORCHESTRA at the MOOSE TEMPLE. 10:30 Street North of Jasper Ave. DANCING 8-12 p.m. Admission, 50c. Moose Temple Available for Rental Week Days and Sundays

# Post-Devaluation Prices for Linens

By Ida Thrift

Great clapping of dainty homemakers' hands greeted the news of the post-devaluation prices for linens.

Linens are bought and sold for at new devaluation prices in at least one specialty shop in town.

So we may look to our linen shopping from this forward with smiles of joy pinned to our racy-checked faces.

A fair trial has arrived from Dublin's fair city at the week-end and distributed his new-cut wares with enthusiastic abandon.

So we will be after having lovely linens at appreciably lower prices.

This is good news for early Christmas shoppers, Sept. 27.

More about news, Mr. Blenheim is about the monogrammed towels available through our linen store. It is to choose towels, style and color, and the price will look after the rest of things-and details.

Black, then, come and please the eye as well as pocketbook. I saw a trio of peach-colored towels; the bath size, face towel and washcloth, set for sale. The works cost a total of \$4.85, including tax.

Small towels in this... house colored sheets arrive from the old country about a week later.

Now the colors are attractive, but just a wee bit bright—and more than a wee bit expensive. You may say as much as for a pair of large-sized sheets. Colors come in canary yellow, deep red, turquoise and blue.

While we're still dappled over the material counter let's have a bit of know-how on the matter of linen shirts.

Seems prices are sliding rapidly, and shirts at one half or one third off.

Some name brand shirts may be had for as little as \$3.95 now when the old price was \$4.95 and \$5.00. Look for a lot of shirts, and too... times a waist.

Calmer sweaters are going the way all good English goods are going. Some name brand sweaters are going too far down... some only as low as \$2.99 per sweater, which is a lot of dollars for some sweaters.

These will be the best changes yet. I hear from the little shopkeepers, who are, after all, the ones who really know the market.

## WHY GROW OLD

### Sampling Shades Helps Cosmetic Type Problem

By Josephine Lowman

Although most women now realize what the correct makeup is for them, and virtually all cosmetic houses have trained persons to help women with their selection, yet many still miss the colors which are best for them.

Then today we see some weird examples of improper makeup. We see women with rouge or powder which makes them look yellow or gives the impression of great association with a flour barrel.

So a woman today is not a slave to the selection of colors. She can choose from a wide range of colors which will be even better and more flattering. It is amazing when a woman chooses a color which will be even better and more flattering.

It is amazing when a woman chooses a color which will be even better and more flattering. It is amazing when a woman chooses a color which will be even better and more flattering.

It is amazing when a woman chooses a color which will be even better and more flattering. It is amazing when a woman chooses a color which will be even better and more flattering.

It is amazing when a woman chooses a color which will be even better and more flattering. It is amazing when a woman chooses a color which will be even better and more flattering.

## YOUR BABY AND MINE

### Baby Has Need For Plenty of Fresh Air

By Myrtle Meyer Edred

Most of us, as young mothers, walked miles with our babies, assuring them the fresh air they needed to have rosy cheeks and good appetites.

Then it became obvious that fresh air could be had in the house as well, if a window were opened in two directions and the baby dressed as for the street and allowed to play or sleep in the aired room.

This did not allow for sunlight on the bare skin, but sunlight is often the best medicine for colds and during the bad days no one, not even the baby, can enjoy being outdoors.

Mrs. D. K. thinks too many children are not allowed outdoors for weeks at a time. "You can see the child's skin turning yellow from too much indoor air," Little children keep them in for fear of colds.

Many houses are closed up tight for fear of draughts and added to this are the fumes from oil, gas or coal. Children catch cold because they do not get enough fresh air.

"Many mothers never read a book on baby care after the child is one year old. They cut out baby food and feed the child from the table, often an improper diet. Then, when the child is a year old, they try to appear their real appetite and they come to the table unenthusiastic."

"I have found that it is a wise idea to put a blanket on the side of the baby's stroller when taking him out as then he won't catch cold from exposure and inactivity."

Sometimes a mother has kept her baby open and white all of her breast-feeding days. It is recommended, get aside one room for the baby to sleep or the children to play and air it thoroughly, leaving the windows up at least one inch on two sides of the room. If it is cold, dress the baby in overalls and let them play in there. Then there need be no fear that the child will become a hot-house plant from lack of invigorating fresh air.

Our latest No. 7 on "Airing the house" is available for 10¢.

WESTLOCK'S MAYOR MILLER WATT  
Grow up with area he serves.

## MEET THE MAYOR

## Westlock Area Farm Paradise

WESTLOCK, Sept. 27.—A man who grew up in the town he now leads—and well known the whole district because he handles its product, golden grain, every day—is Miller Watt, mayor of Westlock.

When Mr. Watt expresses the belief that northern Alberta will become a farmer's paradise, he speaks from experience.

### VARIED TRADES

Since coming west with his parents in 1914 he attended school worked on dairy farms, as a trucker, until going into the grain-buying business, all in the Westlock area.

"Now he is getting an insight into another phase of the district as

By Ken Liddell  
Provincial News Editor

### EDMONTON, Sept. 27.—

A new livestock empire—through an irrigation dam which would also boost Alberta's power—is envisioned in the Hanna district by officials of the Prairie Farm Rehabilitation.

It would come through a dam project on the Red Deer River south four miles north of Hanna, running water into Sullivan Lake.

The whole area has been surveyed, the dam site and canal route located, according to L. B. Thompson, Regina, director of P.F.R.A.

### IN THE BOOKS

Mr. Thompson could not say what the next step would be beyond "it is in the books to be built."

It is understood next step would be discussion of agreements as to costs between the province and the Dominion.

The surveys have taken nearly three years under direction of Stan Hawkins, of the Calgary office of P.F.R.A.

It is estimated the scheme would irrigate about 300,000 acres, east and southeast of Hanna and north of the Red Deer river, commencing around Steeleville Ferry.

### NEW COMMERCE

Officials of P.F.R.A. said the scheme would bring a new type of irrigated commerce to Alberta. It would be different than stocks and bonds projects in that the area would be more suited to livestock, and would virtually create a "livestock empire."

The scheme is what is known as the William Pearce stock water project, the happy thought of stockmen some 25 years ago.

Their trouble because it was found necessary to use pumps and it is a great expense to carry water over a canal from north of Delburne to the river 100 miles to the south.

Survivors have shown feasibility of a 100-foot dam on the Red Deer which would create a 150-foot powerhouse to bolster the province's power, claims generally.

More water could be obtained by tapping the Clearwater river south of Rocky Mountain House, it was reported.

The area was fully occupied between 1913 to 1918, chiefly by ranchers. Although there was some farming, but a general exodus followed continued drought.

### Lloyd Starts On New Hall

LLOYDMINSTER, Sept. 27.—Mayor R. L. Shaw yesterday turned the first sod on site of the new memorial hall at Lloydminster.

Lloydminster branch of the Canadian Legion has been raising funds for this building, and President Giesbrecht, at the ceremony, expressed the need for cooperation of all members of the community.

He assured those present the memorial hall will be a building of which all citizens will be proud, and will be a building of which the boys of Lloydminster and district.

### Berwyn Students Select Officers

BERWYN, Sept. 27.—Students of Berwyn high school officers are: president, George M. Kender; vice-president, Pat Gaudin; secretary-treasurer, Audrey Harris; social convener, Nellie Clark; Henry Fordyce; athletic convener, Eunice Ross; Trevor Lloyd.

AT A BANQUET in the Buffalo Hotel, Red Deer, following the T. Eaton Company Rose Bowl match won for the third successive year by the Martell brothers, Burns and Henry, of Edmonton, from Bill Tait and Frank Wiley, of Calgary, the trophy was presented to the winners by Olf Stranne, executive of the Red Deer store. Shown in the picture are, left to right: Frank Wiley, Burns Martell, Henry Martell, Bill Tait and Mr. Stranne.

By A. H. Clarke  
A Bulletin Correspondent

DRUMHELLER, Sept. 27.—Mr. and Mrs. Ben Brown, of Acme, owners of one of the largest flocks of turkeys on the North American continent, will market this past spring's birds weighing from 20 to 25 pounds for Thanksgiving.

Not are the Browns worried about the Christmas and New Year market, as over 6,000 best grade birds are at present undergoing the first stages of conditioning on the farm range.

The flock in 12 years has grown from a normal home yard stock of a dozen birds. This spring it was augmented by 4,000 day-old pullets.

MARKET PLANS  
Marking this year of the birds in the Brown flock has been planned for a total of 2,000 tons of next spring's breeding season. All birds will be blood tested and banded according to regulations.

Seventeen broilers, each with a capacity of 200 birds, are required throughout the incubation period, each spring. Two ranges, each of 15 early in the spring.

Loss of birds to marauding coyotes, the Browns believe, over the past 12 years has barely averaged a couple of plump birds per day.

Geat enemy to turkey raising on a large scale is the over-chasing element, with sudden hail storms and prolonged wet spells.

Turkeys, governed by a herd instinct, stampede as quickly as a group of wild steers. A feather blow across the range during the daylight hours, or a strange noise at night, can cause a stampede.

Ward will ramblings of a few thousand turkeys come at night when a strange noise brings the birds off their perches onto the dark damp cold ground where they spend the hours till dawn.

### Shooting Planned For Sea Cadets

RED DEER, Sept. 27.—Lieut. Bill Hanigan reports good turnout for the Sea Cadets rifle drill and shoot, held each Friday evening at the Armory. If a few more marksmen are added the expenditure of the H.M.C.S. Cunningham plans to form a competition team to engage sea cadets in other cities.

Lieut. Sid Silverman is commanding officer. Lieut. J. H. Keenan, wireless officer, Lieut. William Smith, paymaster, Lieut. Ed. Kildner, bandmaster.

Hamilton River, Labrador's greatest waterway, is 600 miles long and is 115 miles wide at its mouth.

### RED DEER BUILDING

RED DEER, Sept. 27.—This will be a record year for building construction in Red Deer, according to city clerk George Neelken. Already, over \$1,000,000 in permits have been issued, including \$800,000 for August, and over \$1,000,000 for September.

Neelken also reported that the 18 new lamp standards, which have been ordered by the city, will be installed at a cost of over \$100,000.

Ward will ramblings of a few thousand turkeys come at night when a strange noise brings the birds off their perches onto the dark damp cold ground where they spend the hours till dawn.

### Drumheller Oka X-Ray Proposal

DRUMHELLER, Sept. 27.—Following an address by E. H. Haxby, director of chest x-ray for the Tuberculosis Society, Drumheller city council approved a project which will make available to every family in the city and district a free x-ray.

Work, it is believed, will likely start within the next month.

## YOUNG HUNTER SHOT

DAWSON CREEK, Sept. 27.—Leonard Keecher, 19, Arras, B.C., is recovering from a stomach wound incurred when one of his hunting party mistook him for a moose as he stepped from behind a fallen tree.

**AN INVITATION**

**a "standing invitation"**

Many of today's top executives were on their way up when they first took advantage of this invitation in 1937. Through the years they have learned the importance of the Bank's services to their operations . . . the value of full, frank discussion with their Royal Bank Manager.

The invitation stands.

We welcome the opportunity to serve today's young executives—to discuss their problems and to aid in the development of their plans.

**THE ROYAL BANK OF CANADA**

Over 100 branches in 10 provinces

# Westlock Partners Tell Success Yarn

Cafe, Hotel Addition Mean Improvement To Community

WESTLOCK, Sept. 27.—Seeds of hard work will bear fruit for two Westlock men Wednesday when cafe and addition to the Westlock Hotel are formally opened.

It will be a gratifying day for Rennie Anselmo, hotel proprietor, and his partner, Frank Anselmo, who came from Italy knowing not a word of English and who have worked up to leaders in their community.

And it will be a happy day for Andrew Van Nieuwenhuysen, hotel manager of Mr. Anselmo, and a partner almost everywhere in farming.

**CAFE OPENING**  
The opening will be a big affair and modern cafe, seating 30 at tables and 50 at counter, has been the completion for the day. The process devoted to the hotel is a big success.

## High School Improvement At Westlock

WESTLOCK, Sept. 27.—An almost perfect condition of the high school building at Westlock, Alberta, is the result of the work of the school board and the community.

The school board has been successful in securing the necessary funds for the improvement of the building, and the community has been very cooperative in the work.

## Hospital Addition Brings More Work

### Westlock Auxiliary To Get Assistance By Cafe Opening

WESTLOCK, Sept. 27.—Official opening of the Westlock Hotel cafe on Sept. 28 will mean much to the ladies' auxiliary of the town's imminently hospital.

The new wing, costing around \$25,000 and housing the hospital's last space by 50, is nearing completion and the ladies' auxiliary will mean another challenge to the women of the town and surrounding district.

The hospital staff has been working under difficulties because of cramped quarters and the auxiliary has done a great work in recent months for the welfare not only of the patients but the hospital as a whole.

Proceeds from the cafe opening will be devoted to the auxiliary to help furnish the lost space, and to assist the cause the auxiliary has sent 500 letters to rural residents, inviting them to work for the day.

As its share of the day proceeds, the auxiliary will sponsor a concert on the new Memorial hall in the evening with old-time and modern music supplied by the Johnnie orchestra from Edmonton.

Work of the auxiliary has been twofold in assisting the Sisters of Charity of Halifax, who are in charge of the hospital.

**TABLE BOUGHT**  
The auxiliary, which at the moment has 20 town and country members led by Mrs. R. W. Thompson as president, last year bought a \$1,000 operating table, new incubators and had a tremendous amount of sewing for the hospital.

Last year's work was typical of that carried on by the women since the hospital was built in 1908, with exception of war years when attention was diverted to the Red Cross.

The auxiliary, non-sectarian, visits patients, supplies reading matter and does shopping errands, in addition to arranging for summer parties for patients and staff.

Actually the auxiliary is a buffer between the hospital and the community.

## Public Works Staff Boost

WESTLOCK, Sept. 27.—The town and its work is highly regarded by the staff, the town and the town's five districts.

The new appointment was called when it was found that the town council, with the town council, will bring to the town council the town council.

The new appointment was called when it was found that the town council, with the town council, will bring to the town council the town council.

**Legion Convention**  
CORONATION, Sept. 27.—Central district convention of zone five will be held in the Legion hall, Sept. 28. Representatives of the provincial command of the Canadian Legion will be present.

# Canada May Be Western Arsenal

## Russ A-Bomb Announcement May Increase Arms Sales

OTTAWA, Sept. 27.—(CP)—Russia's possession of an atomic weapon might increase the demands on Canada and her 11 Atlantic Pact allies when they buckle down to joint military planning in about two weeks.

But it also might boost Canadian hopes of becoming an industrial arsenal for Europe.

The first major forum for studied western reaction to the news will be the meeting of the defense committee and the subsequent conference of its military committee in Washington.

**DEFENCE SESSION**  
The first meeting will bring Defense Minister Cline and his political counterparts together Oct. 3 for one or two days.

Immediately after, the military committee will go into session to launch plans to defend the western world against any attack and to offset any aggression. The Canadian delegation will be headed by Lt. Gen. Charles Foulkes, chief of the general staff and will consist of about 100 officers of all three forces.

From an internal defense standpoint, Canada has taken years of the Russian weapon in stride. Her forces already are expanding and are wearing their current manpower ceilings. Plans to raise the ceilings had already been made before the A-bomb announcement which was not great surprise to military figures.

**SOME HURRY**  
It is expected there will be some hurrying of current preparations such as formation of fighter squadrons, training of airborne battalions and construction of a radio-warning network. But officials say there have been going along steadily and about as fast as possible anyway.

The Russian development might be turned to her own advantage by Canada. She would like her chief contribution, outside of training forces, to be a share in the arming of Europe on a cash basis.

At any rate, Russia's shadow will hang more heavily than ever over the new-born experiment in western alliance.

**War Amputations Meet In Winnipeg**  
WINNIPEG, Sept. 27.—(CP)—Leaders of Veterans' Association and other representative groups today welcomed 500 delegates to the Dominion convention of the Amputations of Canada which opened here yesterday.

Leutenant-Governor R. P. McWilliams of Manitoba told the delegates "no organization could be more welcome to what you stand for and the service you have rendered."

A parade opened yesterday's convention.

**U.S. Auto Output Hitting Record Levels This Year**  
By David J. Wilkie  
DETROIT, Sept. 27.—(AP)—Twenty years ago the United States automobile industry, working around the clock most of the time, set a production record. It built 5,585,420 cars and trucks.

This year, despite many war supplies, a record already is in sight.

It probably will exceed the 1929 mark by at least 400,000 vehicles. Barring an industry-wide tie-up, the record mark should be hit by the final week of November.

The industry already has built more cars and trucks in 1949 than it did during the first nine months of 1929. The records show that until the end of September, 1929 production had reached 4,652,325 vehicles. Unofficial figures place this year's output to date at around 4,700,000.

Nobody knows what lies ahead of the car industry in labor and merchandising problems during this year's final quarter. But nobody expects production to dwindle to 177,397 vehicles as it did in the last three months of 1929.

High volume output has been the rule for the last five months. Unless there is a large decline in demand, it will be carried through October.

**HIGHWAY SYSTEM ENLARGED**  
If the present indicated production volume is a current rate is realized, the industry will be able to print in a three-car output of

**U.S. Immigration Dept. Apologizes**  
OTTAWA, Sept. 27.—(AP)—The United States Immigration Service officially apologized to Ruth Comfort of Toronto today for any discomfort she may have suffered when officials detained her overnight in New York recently which she attributed from a trip to Europe.

The apology was requested by Canadian Ambassador Horne Wright.

## Shooting Mars East Funeral

MONTREAL, Sept. 27.—(CP)—The solemnity of a burial in Mount Royal cemetery was shattered yesterday when a 48-year-old man fired several shots at a crowd of mourners seriously injuring one woman and then killing himself.

Both are negroes.

Suburban Outremont police identified the dead gunman as John Frederick Turner of Montreal.

The injured woman, 34-year-old Rose Evans, was taken to hospital with two bullet wounds. Doctors said her condition is serious.

**LOVE-APPROPRIATE**  
Police said the bizarre shooting, believed to be the sequel to a love affair, came as Evans and Turner were being laid out in the grave in a late afternoon burial service.

When the shots rang out, more than 200 mourners fled to the ground or scattered for their lives behind headstones and watched Turner lead the screaming Miss Evans.

**Scot Whiskey Is Appeal Court Issue**  
GLASGOW, Sept. 27.—(CP)—The Scotch Whisky Association announced yesterday an increase from £2 18 30 to £3 16 6 12 per bottle case in the FOS price of whisky exported to Canada.

An association spokesman said the price increase was made as a result of the devaluation of sterling and is designed to maintain the dollar return on exports to Canada at pre-devaluation level. Prior to the United States market have also been increased.

The spokesman said the price increase was made "at the request of the British government."

The increase will not necessarily mean an increase in the retail price of Scotch whisky in Canada, he said. It means Canadian importers will pay the same amount in dollars as before devaluation.

In addition to the Nile, Egypt has about 1,000 miles of navigable canals.

**War Amputations Meet In Winnipeg**  
WINNIPEG, Sept. 27.—(AP)—Leaders of Veterans' Association and other representative groups today welcomed 500 delegates to the Dominion convention of the Amputations of Canada which opened here yesterday.

Leutenant-Governor R. P. McWilliams of Manitoba told the delegates "no organization could be more welcome to what you stand for and the service you have rendered."

OTTAWA, Sept. 27.—(AP)—The United States Immigration Service officially apologized to Ruth Comfort of Toronto today for any discomfort she may have suffered when officials detained her overnight in New York recently which she attributed from a trip to Europe.

The apology was requested by Canadian Ambassador Horne Wright.

**WAIL ORPHAN** Barbara Nikola, 12, flashes her "made in America" smile as she eats her favorite food in New York's Chinatown. Barbara landed in U.S. four months ago from Greece half starved and almost blind from shrapnel wound suffered in 1944. Her foster parent in New York is actress Tallulah Bankhead.

**Calgary Police Control**  
The Calgary Police Control will be asked to decide whether the Calgary police force is controlled by the city or the Board of Police Commissioners.

The appeal is connected with a Supreme Court action in which Kenneth G. Kellie of Calgary is suing Constable L. L. Maltby, 45, named assistant and the City of Calgary for \$40,000 damages for injuries alleged to have been received last Dec. 21 in city jail cells.

**ORDER ISSUED**  
The appeal was indicated today by Chief Justice W. R. Howan who issued an order directing City Clerk J. M. Miller to disclose the name of Maltby's assistant.

The spokesman said the price increase was made "at the request of the British government."

The increase will not necessarily mean an increase in the retail price of Scotch whisky in Canada, he said. It means Canadian importers will pay the same amount in dollars as before devaluation.

In addition to the Nile, Egypt has about 1,000 miles of navigable canals.

BY BILLY ROSE

## Crush Was Drastic To Bobby Soxer

The other night at "21," I got to gabbing with a movie producer about Jimmy Stewart's recent marriage.

"I think it'll click," I said. "Jimmy's a first-run guy, and unless the photos are lying, his bride is an elegant bit of brie-a-brac."

"I can't help wishing it had never happened," said the movie man. "How come? What have you got against the marriage?"

"Only the fact that it got in the papers," said the producer. "For a long time to come, little girls will be telling themselves that if Mrs. McLean could hook a fella like Jimmy, why, it could conceivably happen to anybody."

**CRUSHES CAN BE SERIOUS**  
"It means business at the box office," I said. "I know it does," said the movie man, "but these fan crushes can get pretty serious. Why, I remember one case where..."

As the producer told it, a few years ago a cute little housewife named Adelaide, who lived in suburban Los Angeles developed a tremendous crush on a Hollywood star. The walls of her room were papered with his photos, and she kept telling her chums that if she ever met her idol she would offer herself to him, body, soul and steady state.

Well, she got her chance. When her high school paper ran its annual prety contest, the winning effort was a hoot-sky-hoot-hanna dedicated by Adelaide to her celluloid crush. And a few days later the star's press agent leaked out it.

Never one to let a gimmick lie fallow, he arranged to have the star visit Adelaide's school, pre-ent her with a medal and, for the benefit of the flashbulbs, take her to dinner at one of the town's principal restaurants.

The first part of the press stunt went off on schedule. Adelaide, the color of clam juice when the great man, pinned the medal to her blouse, managed to smile pretty for the cameras. But at dinner that night she began to come apart at the seams.

Instead of making the big offer she had been rehearsing for months, she began to babble like the school girl she was and, for a grand finale,

knocked over her coffee and splattered the actor's suit.

**END OF WORLD**  
The glamour-gon made the mistake of titillating. And that was the end of Adelaide's world. When she got home she wrote him a dying-duck letter of farewell, dropped it in the mailbox down the street, and then went to the medicine chest and swallowed a bottle of sleeping tablets.

Fortunately, her parents came from a bridge game in time to discover what she had done. For the next couple of hours the reluctant lot was subjected to the further indignity of a stomach pump and assorted emetics.

Next morning the frightened star phoned the teen-ager's father, and was pretty relieved when he learned that the little girl was all right. "Did he ever see the kid again?" asked the movie producer.

"No. However, he did send an emissary who had more in common with the girl—his younger daughter, Jane, who was only five years older than Adelaide."
